

Quality of life indicators from the Canadian Social Survey, fourth quarter 2022

Released at 8:30 a.m. Eastern time in The Daily, Thursday, March 30, 2023

New tables for two indicators in Canada's [Quality of Life Framework](#), job satisfaction and financial well-being are now available based on quarterly data from various iterations of the Canadian Social Survey (CSS) collected in 2021 and 2022.

In addition, tables for 12 quality of life indicators have been updated to include CSS data from the fourth quarter of 2022. These indicators include life satisfaction, sense of meaning and purpose, future outlook, self-rated mental health, self-rated health, sense of belonging to local community, someone to count on, trust in others, loneliness, satisfaction with time use, satisfaction with local environment, and confidence in institutions.

The data visualization product [Selected indicators of quality of life in Canada](#) has also been updated.

Available tables: [13-10-0843-01](#) to [13-10-0848-01](#) , [45-10-0048-01](#) to [45-10-0053-01](#) , [45-10-0067-01](#) to [45-10-0070-01](#) , [45-10-0073-01](#) to [45-10-0076-01](#) , [45-10-0079-01](#) to [45-10-0082-01](#) and [45-10-0086-01](#) to [45-10-0089-01](#) .

Definitions, data sources and methods: survey number [5354](#).
